

**COM 220: Digital Media Convergence  
Spring 2014**

**Homework Assignments:**

5. Image Manipulations
  - Adobe Photoshop
  - Understand cropping, borders and image/canvas size adjustments
  - Understand tonal and color correction/manipulation

**Requirements:**

1. Choose ten images from the 100 you took in the previous homework assignment. The ten you choose should be ones you are considering for use in Project 2.
2. Use the cropping, image size, canvas size and transformation tools to isolate and/or size the images to the approximate size you will need for Project 2.
3. Use the various image adjustment tools available in Photoshop to broadly color and/or tonally correct each image.
4. Use the dodge, burn, and sponge tools on the toolbar to further color and/or tonally correct each image in specific areas.
5. Name each image with a name that represents it's potential use in your final composite image for Project 2.
6. Save each image out as both a Photoshop file (.psd) and a TIFF file (.tif).
7. Place the ten pairs of images (20 total) into a folder labeled with your name and the word "manipulations: (i.e. phillip\_motley\_manipulations).
8. Copy your completed folder to Quicksilver in the "Homework Submissions" folder (put your file in "Assignment 5", which is in our COM 220 class folder)

**Due:**

3-21-14
